Amirreza Kadkhodazadeh

Tehran, Iran| +989209889625 | [LinkedIn](#) | amirreza.dev@protonmail.com | www.amirreza.dev

Mid-level Front-End Engineer I've navigated the web development world for 2 years launching startups for my friend's using HTML, CSS, JavaScript. And I have extensive experience with React.js for 3+ years and its associated framework such as Next.js. I'm passionate about web development and user-friendly web application and a firm believer in the mobile-first approach. I work hard, honest and I care about writing clean codes and high-quality web apps. I'm extremely keen for learning new things about programming and my goals are to become a MERN stack and React Native developer.

Core Competencies

Scrum/Agile Methodologies | React Hooks | SSR, CSR | Data fetching (Axios, React query, Zustand) | From generators (Formik, React Hook Form) | Routing (App router, React Router) | Testing (Cypress.io) | Source controls (GitHub) | CSS preprocessor (SASS/SCSS, Styled-components) | UI frameworks (Bootstrap, Tailwind CSS, Material-UI, Chakra-UI, Ant design) | Linux desktop operating system | Charting libraries (Reachrts, Chart.js)

TECHNICAL PROFICIENCIES

Languages: JavaScript | TypeScript
Design patterns: Observer | Singleton | Strategy | Decorator
Databases: Firebase | Mongo DB
Libraries and frameworks: Vite | React.js | Next.js | Bootstrap | Tailwind CSS | Material-UI | Chakra-UI | Ant design | React-Bootstrap | Reactstrap
Operating system and networking: Linux (Debian, Arch, Fedora) | Network plus | CCNA
Bilingual languages: Persian | English | Italian

PROFESSIONAL EXPERIENCE

IST Groups | Tehran, Iran
Mid-level Front-End Engineer
Feb 2021 - Present
Our project utilizes React with Next.js v14.1.0 and TypeScript v5.2.2 for efficient, type-safe development. We integrate Mantine v7x for a consistent design system and Zustand for streamlined state management. Additionally, we leverage Chart.js to visualize data effectively within our application.

- Enhanced user experience by implementing responsive web designs and optimizing website performance.
- Working with RESTful API

DAYA Soft GmbH | Remote (Germany)
Mid-level Front-End Engineer
Nov 2020 – Feb 2021

Our company had two dashboards one build with React and the other one build with Next.js and TypeScript which the UI designed by UI/UX team we used Redux for state management and Formik for form generator.

- Implemented dashboard panel through UI/UX team.
- Collaborated with Back-End members to implement new feature developments and APIs.
- Working with RESTful API

30UWEB | Karaj, Iran
Front-End Engineer
Sep 2019 – Jan 2020
We designed and develop websites for businesses and other companies that need new website

- Implemented websites and landing pages from concept through deployment.
- Standardized all output with a new, responsive, mobile-first approach and strategy.
- Collaborated with Back-End members to implement new feature development.

PERSONAL PROJECTS

Instagram clone
It's a clone from Instagram and it's connected to server.
(Still working on it)
Tools I used:
React.js | Chakra-UI | Emotion | Firebase | Vite | Zustand

Shopinx dashboard
This project is a dashboard which I designed the UI myself.
www.shopinx-dashboard.vercel.app
Tools I used:
React.js | Bootstrap 5 | React-Bootstrap | SCSS | Redux

Film Nama
It's a single web page that I designed the UI myself.
www.film-nama.vercel.app
Tools I used:
HTML | CSS | SCSS | JavaScript

Shirinita Magazine
This project belongs to 30UWEB company and all of the Front-End development done by me.
www.shirinita.com
Tools I used:
HTML | CSS | Bootstrap 4 | JavaScript | JQuery

Marjaan Laboratory
This project belongs to 30UWEB company and all of the Front-End development done by me.
www.marjaangroup.com
Tools I used:

HTML | CSS | Bootstrap 4 | JavaScript | JQuery
